

## DEALER TESTIMONIALS IN COPIER SPACE

"I have used head hunters, monster, etc. and nothing compares to the low price and quality results Pyramid delivers. They use sophisticated software to mine data stores all over the internet, including monster, hot jobs, etc. and quickly provide me with many qualified job seekers to chose from."

"First of all, engaging Pyramid Screening Technology was very easy. Within just a couple weeks, we had a pipeline of quality, pre-screened candidates. I estimate the time saved in screening candidates alone to be around 66%. The price was also very affordable, especially when comparing against newspaper ads that cost several hundred dollars with zero guarantee on what you're going to get in return for your investment. I would use this service again."

"Please feel free to use me as a very strong reference for the program. We ended up hiring 2 great reps! In addition to the quick results the web-based system ended up saving a ton of time. It would have taken me 4 to 6 months, and lord knows how many hours spent reviewing resumes, to try and match what the Pyramid program accomplished inside of 45 days.

Huge difference in time devoted to the process. With the Monster program I literally spent hundreds of hours chasing down candidates. The Pyramid program quickly presented qualified candidates who were currently in the job market and the web access organized the process. I would guess the Pyramid program saved me about 80% of the time that I had to spend on the process with Monster."

Furrowing through Monster and finding people that fit takes a lot of effort. Pyramid does most of the legwork with their innovative software and delivered to us 22 sales resumes of people actively seeking employment. Consequently, everyone I called from the Pyramid resumes was open to learning about a new opportunity.

We reviewed all of the resumes, had phone interviews with at least 10 of them, in person interviews with at least 7 and hired 3. We like the quality of the hires, the speed of the process relative to other methods, and the cost to source 3 hires was very reasonable. Pyramid's follow up with us was excellent.
